Yet, while autism has become an urgent public health issue due to its increasing prevalence, the neural mechanisms underlying these behavioral impairments remain largely unknown.

Every Dutch citizen is guaranteed access to health care insurance, although certain categories of people (high income earners) are not obliged to purchase it (yet just about all of them do)

I don't have any other suggestions, except to tell you that I am in the same boat

Other than the meaning of pimp as the person that manages and solicits customers for prostitutes, pimp also means to dress elegantly, and is a colloquialism for to improve, make cool, make better
